

D-Lead[®]

the Heavy Metal remover!

Skin Cleaners

D-Lead Hand Soap
The ultimate in removing metal contamination from the skin.

D-Lead Deluxe
A milder formula to be used as an all over body wash and shampoo

Dry or Wet can be used with or without water for quick and convenient clean up of heavy metals.

Dry or Wet with Abrasives gives you heavy duty clean up power. Cuts through grease and grime.

**Quickly
& Effectively
removes...**

D-Wipes are moist towelettes that can be used to clean hands, surfaces and PPE, such as inside respirators.

All the D-Lead products are available in a range of convenient sized dispensers

Surface Cleaner

Equipment and All Purpose Cleaner is a concentrate that makes cleaning contaminated surfaces quicker and more effective.

Laundry Cleaners

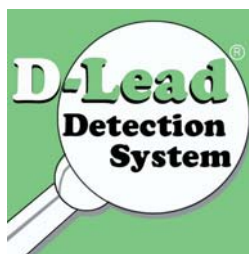

Extra Strength Detergent for heavy duty laundry cleaning of contaminated work clothes.

Respirator Cleaner and Laundry Detergent for effective cleaning of respirators and clothing.

Lead Detection

For instant detection of the presence of lead the **D-Lead Detection System** is the simplest way to visually spot invisible lead residue and contamination.

Decontamination Mats

D-Step[™] Mats are the most cost efficient way of preventing the spread of contamination throughout your worksite. The specially treated surface picks up 99% of contamination from the soles of shoes. The mats are easily cleaned for long term repeated use.
