

VITREOUS GLASS MOSAIC TILES

Vitreous Glass Mosaic range is a range of premium quality vitreous glass mosaic tiles (also known as tesserae), made in the tradition of the ancient Venetian glass makers. The range also offers a selection of beautiful colours which will enhance any mosaic project. These tiles, already used by the professionals, are also ideal for the beginner as they are easy to cut and use.

Available in 28 colors and mounted on sheets 305mm x 305mm containing 225 pieces. Each mosaic tile is 3/4" square, which is perfect for mosaic work. The tiles are available in single colors. The mounting paper is a water soluble removable craft paper that hold the tiles in place with uniform spaces ready for grouting.

Made of silica sand and mineral colorants that are melted and blended, they also have a texture back for proper adhesion to surfaces. These opalized mosaic glass tiles are perfect for artistic application. You can design your own;

- Stepping stones, countertops, tabletops, floors, flower pots, wall designs and anything else you can think of!
- Easy to break so they can be nipped into many shapes easily
- Water and frost resistant, which makes them perfect for outdoor use.
- Light resistant, which means that their exquisite colours will not fade.
- The surface of each tile reflects light beautifully.
- Each tile has a rippled underside which improves adhesion.
- Each tile has bevelled edges to ensure a perfect fit between tiles and better grout lines.
- The colour range includes some great colors - adding a touch of class to any project.
- Easy to break so they can be nipped into many shapes easily.
