

Studio 850 Diamond Bandsaw

This top of the line diamond bandsaw has the power to cope with heavy duty workloads. Designed for the professional studio where speed and quality are paramount.

The Studio 850 bandsaw's ½ hp motor and super heavy duty blade will cut intricate shapes in glass up to 30cm wide and 75mm thick.

Cutting 3mm glass is a breeze with the Studio 850. The diamond blade cuts up to 850mm a minute.

The power water pump insures that fluid is directed to the cutting point to give clean edge cutting.

Ask for a demo today. The Studio 850 will open a new world of cutting
